## STAMPEDE PRIZE WINNERS HAVE BEEN ANNOUNCED

The Carbon Sports Day and Stampede is over and from the spectator's point of view the stampede was not as successful as it may have been. It was unfortunate, however, that there was a scarcity of riders and participants in the various events, but this may have been due to so many other stampedes throughout the country.

The first day the program commenced with the big automobile parade and the winner of the first prize for the best decorated car was Gottlieb Ohlhauser.

In the afternoon the children's sports were run off and the baseball games commenced. In the first game between Carbon and Acme, Carbon won. In the second game between Acme and Three Hills, the latter won by a large margin. In the final game between Carbon and Three Hills, the local boys proved too strong for the visitors and succeeded in winning first place, with Three Hills second.

The second day the Stampede events were run and some good riders were present. Below is a list of the prize winners in the various events, it being impossible for us to publish a complete list on account of some of the tickets not being turned in.

Best Riders—1st, Slim Watin; second Jas. Mooney; 3rd, Jas. Bolton.

Bareback Riding—1st, Swatzenberger; 2nd E. Wilson;

Exhibition Rides—Atkins, Wilson, Ginter and Bolton.

Amateur Rider—R. E. Wilson 1st, Wilson; Atkins, Woods and Morgan split for second and third.

Horse Races—Free for All—first H. A. Smith, 3rd, Archibald.

Pony Race—1st, H.A. Smith; 2nd, Archibald.

Wagon Race—1st, Lemay; 2nd, J. Ross.

Best Bucking Horse—Merrill McMann.

Special Pony Race—A chibald 1st, Laine; 2nd.

Shetland Pony Race—1st, Ruth Hagen, 2nd W. Oliphant; 3rd Geo. Abramenko.

Ladies Race—1st, H. A. Smith; 2nd, J. Hedstrom.

The judges for the entire program were Messrs. L. Hansen; Chas. Guyn and Art. Hudson.

During these two days there was a continuous carnival and it was very successful from a financial standpoint. Each evening a dance was held and these proved quite a success.

The proceeds of this event all go towards the erection of a new Elks Community hall in Carbon and a substantial sum is expected to be reported to have been cleared, when all returns have been checked.

## JUNIOR TENNIS MATCH PLAYED AT DRUMHELLER

The Juniors of the Carbon Tennis Club accepted an invitation of the Drumheller Club for a friendly match on Sunday. The following are the results:

Boy's Singles—S. Hayden of Drumheller defeated W. Poxon of Carbon.  
W. Stark of Drumheller defeated H. Edwards of Carbon.

J. McKay of Drumheller defeated M. Wiertz of Carbon.

J. Cole of Drumheller defeated J. Fairbairn of Carbon.

J. Mason of Drumheller defeated N. Nash of Carbon.

In the girl's singles Miss E. Braisher defeated Miss E. Leggett of Drumheller.

Boy's Doubles—Hayden and Stark of Drumheller defeated Poxon and Edwards of Carbon.

McKay and Cole of Drumheller defeated Wiertz and Fairbairn, Carbon.

Mixed Doubles—S. Hayden and Miss O'Mang of Drumheller defeated W.

## SHIRLEY McKIBBIN DIES IN CALGARY THURSDAY LAST

The sad word was received last Thursday that Shirley McKibbin, two year old daughter of Mr. and Mrs. A. F. McKibbin, of Carbon, had died that morning in the General Hospital.

The deceased was rushed to Calgary last Sunday, June 23, suffering from an attack of appendicitis and she was operated on that day and was reported to be progressing favorably. Later she contracted pneumonia which resulted in her death.

Funeral services were held in Calgary on Friday, June 28, from Shavers funeral chapel and interment was made in the Burnsland cemetery.

## LITTLE ITEMS OF LOCAL INTEREST

Mrs. Torrance, Mrs. A. Hay and son, Stewart were Calgary visitors on Saturday.

Miss Helen Watts of Calgary, spent the week end holiday with Miss Irene Smith. She left for her home on Tuesday.

Mr. and Mrs. Morrison and son spent the week end visiting with Mrs. Morrisons parents, Mr. and Mrs. J.E. James.

Miss Vera Poxon was out from Calgary over the holiday.

Rev. C.B. and Mrs. Oakley left on Monday for Elnora, where Mr. Oakley will have charge of the Union church.

Mr. and Mrs. McKibbin and Miss Watkins and her mother, Mrs. Watkins came out from Calgary on Friday.

Miss Daphne Nash came out from Calgary last Wednesday and is spending a few days with her parents, Mr. and Mrs. C. H. Nash.

Roy English arrived home from Holden, Alta., where he has been teaching for the past term.

Poxon and Miss E. Braisher, Carbon.

The Drumheller boys so far have defeated all comers in the province. Last year they defeated the picked team of Calgary boys in a two day match. It was a pleasure to see S. Hayden, a boy of 12 years, play. He won the Men's Singles at Drumheller this year.

## ANGLICAN CHURCH FOR CARBON

Work commenced last week on the excavating for the new Anglican church, which is to be built in Carbon this summer. The scene of this work and future location of the new church is between the house now occupied by W.H.T. Olive and the Provincial Police barracks.

We understand that volunteer labor is being called for and that the new edifice promises to be an asset to the town.

Miss Evelyn Evans returned home on Saturday from Brandon.

Wilfred Poxon has accepted a position in the Price store.

Ernie Moritt expects to leave about the end of the week for Claresholm, where he has accepted a position. We understand that Gordon Ramsay is taking his place in the Drug store.

Mrs. L. Elliott and son, Jack, and Miss McComb, of Calgary, are spending a few days with Mr. and Mrs. W. B. Elliott.

Miss Martha Gray left on Tuesday for Edmonton, where she is attending Summer School.

J. A. Toombs of Lethbridge, was a Carbon visitor on Sunday and returned on Monday to the southern city.

Bob, McEwan and Mr. White, of Calgary, were week end visitors to Carbon.

Mr. and Mrs. Vickers were visiting with Mr. and Mrs. Fred Poxon over the week end.

Mr. and Mrs. Clarence Fin and son Gordon, of Empress, were holiday visitors with Mr. and Mrs. A. Hay.

Mr. and Mrs. C. Green and son of Calgary, were visiting with Mr. and Mrs. H. N. Elliott over the holiday.

Mr. and Mrs. Clayton Hay and son spent the holiday visiting with Mr. Hay's parents, Mr. and Mrs. A. Hay.

## HESKETH SPARKLETS

There will be a dance in the community hall at Hesketh on Friday evening, July 5th.

Mr. and Mrs. A. Poile and daughter are motoring to the Coast in their new Nash car.

Mr. and Mrs. Hunter spent the week end visiting at Camrose.

Mr. and Mrs. Geo. Sterling are visiting with relatives at Westlock, Alta.

Don't forget the dance.

# Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

## Spare the Wild Flowers

Possibly nothing is so much a part of our lives from the cradle to the grave as flowers. Set the infant down amongst wild flowers, and immediately he wants to eat them all. Then the wee toddler arrives with something for "Mom." The chubby little fist will only contain a badly crushed dandelion, but in his eyes it is very precious.

We all remember the schoolroom the morning after the circus. No one had done any homework, so our teacher's desk looked like a condensed flower show. The dear lady (may her grave be covered with violets!) tried to look very severe and pretended she could not find her strap, till Fatty puffed in ten minutes late with a bouquet of seven enormous sunflowers for "teacher." Then she had to laugh, and we roared. She stood the sunflowers in the corner where she had so often stood Fatty and gave us all double homework, which we all carefully prepared. Next comes the careful selection of flowers for the "only girl" and the sight of the obnoxious bunch the other fellow brought. So it goes on all through life; in times of joy, and times of grief, flowers will bring messages of goodwill and hope into our lives.

And how old and young alike welcome the first flowers of Spring, and rejoice in the ever recurring miracle of the tiny seeds developing so rapidly until flowers in all their multi-coloured varieties turn the long bleak garden into a thing of beauty, and the unattractive bulb produces blooms of exquisite loveliness.

In isolated parts of Canada's great national parks, and in remote parts of this great Dominion as yet unspoiled by man, wild flowers are so beautiful, so plentiful, and in such variety, that one is filled with rapture akin to reverence at the knowledge that so much beauty could be found in one place. It is difficult to realize that there was a time when beautiful flowers grew in profusion all over the park. The thoughtless and excessive gathering of flowers has completely removed many of the most beautiful examples from the easily accessible places where weeds now predominate.

The threatened extinction of the most attractive of our park wild flowers has become a serious problem to the park authorities. The distinction between a flower and a weed is, in a measure, only a question of scarcity or abundance; their desirability depends as a rule on their rarity. The man who could so popularize the dandelion, the stinkweed and the thistle, that they would be gathered in preference to the avalanche lily, the columbine and the lady's slipper, would become immensely popular with the park authorities. Unfortunately the gathering of a bouquet of these weeds would create about the same amount of hilarity as the amateur duck hunter proudly displaying his bag of mud hens.

According to the park laws, the man who chops down a lot of beautiful trees merely to hear them crash, and the man who fills his car with wild flowers merely to throw them out withered and useless at the next stop, are both equally guilty, and both are liable to a heavy fine. While ninety-nine out of every hundred tourists would view with satisfaction the arrest and subsequent punishment of the tree chopper, only one out of the same hundred would not consider the flower waster a victim of oppression were the same treatment meted out to him as to the tree chopper. The reason is that flower picking has become a universal habit, which habit on the part of a selfish or greedy individual becomes a nuisance, depriving others of the enjoyment of the flowers which he only appreciates in the getting. A striking contrast is the lover of flowers who sparingly and carefully preserves his specimens for reference, or visits the growing flower many times to study its development.

If the tourist would only realize that the unpicked flower will retain its beauty for days and add greatly to the pleasure of many future tourists, while the picked flowers only lasts a half-hour or so, when it becomes a sorry wreck and is thrown away in disgust to bring no pleasant memories to anyone!

The tourist traffic has become a great asset to Canada. It is a financial asset of hundreds of millions of dollars annually. But it is more than that—it brings tens of thousands of people from other countries who come to know and love Canada. This intermingling of peoples makes for understanding, goodwill, and world peace. But tourists will not flock to barren, weedy wastes, and unattractive countrysides. They come to view and enjoy the beauty that is Canada, the grandeur of its scenery, its lakes and rivers, forests and mountains, and its unspoiled natural beauty.

Every flower uprooted and soon thrown away, every blossom thoughtlessly picked instead of being left to bloom and re-seed itself for next year, is a serious depreciation of that great national asset, and an ultimate enormous loss to Canada.

Think it over the next time you are tempted to pick an armful of lovely wild flowers turning some secluded spot along the highway or in a national park into a place of almost breathless beauty.

"Yoh ain't in love is yoh, Andy?"  
"Yes, Ah is in love all right—but she can't get no job."

### Why Judges Get Grey

Judge (to witness): "Repeat the prisoner's statement to you, exactly in his own words. Now, what did he say?"

Witness: "My Lord, he saith he stole the pig—"

Judge: "Impossible! He couldn't have used the third person."

Witness: "My Lord, there was no third person!"

Judge: "Nonsense? I suppose you mean that he said, 'I stole the pig!'"

Witness (shocked): "Oh, my Lord! he never mentioned your Lordship's name!"

### Dust Makes Long Journey

Australian Soil Travelled 2,000 Miles Through Air To New Zealand

One of the most unusual dust journeys on record was that made by many tons of Australian soil which travelled more than 2,000 miles through the air to New Zealand, according to recent reports. The greater part of the journey was over water. In many parts of New Zealand during the first falls, when the dust was brought down by rain, the mixture was referred to as mud rain. Some of it fell on sweaters of players during a football match, and so discolored them that it was difficult to pick out the garments of the different teams. Although not the first dust storm to travel from Australia to New Zealand, the deposit was remarkable both for quantity and the area over which it was recorded.

## HEALTH REGAINED

Mother and Daughters Restored Through the Use Of Dr. Williams' Pink Pills

"Contrary to what my friends once thought, I am still living," says Mrs. Norman White, New Canada, N.S., "and I give the credit to Dr. Williams' Pink Pills. I had been a sufferer for some years. I was weak and run-down; my heart would palpitate violently at the least exertion. I grew so weak that I could not do my housework. I was under a doctor's care, but it did not benefit me. A second doctor was called in, but with no better result. I was told that I was almost bloodless, and I became so weak I was forced to remain in bed. My friends did not believe I could recover. While in this condition a neighbor strongly urged me to try Dr. Williams' Pink Pills. It was like grasping at a straw, but six boxes of this medicine were got for me, and by the time I had taken them I was able to sit up. Another six boxes were got and soon I was able to go about, my health steadily improving. I continued the use of the pills until I felt my health fully restored. I still take the pills occasionally as a safeguard. My two daughters have also used the pills with the most beneficial results. The trouble in both cases was the anaemia that so often comes when girls are entering womanhood. Under the use of this medicine both fully regained health, strength and activity. You can see, therefore, that it is impossible for me to praise Dr. Williams' Pink Pills too highly, and I hope every weak person who may read this will benefit by my experience."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Attended Memorial Service

Representatives of the Canadian Government and the British Legion joined with a number of residents and visiting citizens of the United States, in attending a brief memorial service in the American cemetery at Rockwood, England. Hundreds of U.S. soldiers were buried at Rockwood during the great war.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

### Quite In Favor

A canvasser, approaching a hefty-looking navvy, asked him whether he was in favor of returning a certain candidate to Westminster.

The navvy took his pipe out of his mouth, gazed at the canvasser without enthusiasm, and said, "Yus, if that's where he comes from."

**For Rheumatic Pains.**—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

### Using Many Pulpstones

Over half a million dollars worth of pulpstones are used annually in the 60 Canadian pulp mills.

When women borrow trouble they usually pay back double.

Minard's Liniment for Earache.

### Alberta Town Planning Scheme

Most Progressive Plan To Be Found On the Continent Of North America

The most progressive town planning scheme to be found on the entire continent of North America was that recently established by the province of Alberta, H. L. Seymour, C.E., told the members of the Town Planning Institute of Canada at a meeting in Winnipeg.

The laying out of rural parks, picnic grounds, tourist camps and school grounds, of fair grounds and hospital grounds, was all provided for; advice to cities, towns and villages on their planning problems was available; and the service of the board was open to farmers in helping them to lay out homesteads, grouping buildings or installing running water. It was a service extending all over the province, Mr. Seymour said.

All this had been made possible by the support of the people of the province. The inspiration had come from the premier, who, on his visit to England in 1927, saw the beneficial effects of town planning as it is being carried out in the Old Country.

### Wheat Pool Development

Saskatchewan Pool Estimates 175,000,000 Bushels Of Grain Will Be Handled This Season

Combined handlings of wheat and coarse grains by the Saskatchewan Wheat Pool during the 1928-29 crop year will amount to approximately 175,000,000 bushels, according to an estimate presented to delegates in attendance at the semi-annual meeting of the organization at Regina.

A tabulated statement showing the handlings by the pool of various kinds of grains during past years, together with an estimate of the total handling for 1928-29, indicate that this season will far surpass former dealings.

A thorough review of the development of the Saskatchewan Wheat Pool elevator system, however, was given in the report of the board. Delegates were presented with a financial statement, showing the capital position of the organization, as to its ability to finance further extensions of the country elevator system.

### Largest Gypsum Producer

Nova Scotia is the largest producer of gypsum in Canada followed by New Brunswick, Ontario, Manitoba, and British Columbia.

Keep Minard's Liniment in the Medicine chest.

South Africa produces 90 per cent. of the world's diamonds.

### Start Education Campaign

W.C.T.U. Will Discuss In Sunday Schools Effects Of Alcohol As a Beverage

A national education campaign through the Sunday schools of the Dominion as to the nature and effects of alcohol as a beverage will be conducted by the Women's Christian Temperance Union. It was decided at the third session of the Dominion convention of the union. Mrs. Gordon Wright, London, Ont., was elected president for the next two years, and Mrs. Louise McKinney, Clareholm, Alta., vice-president. Mrs. T. H. Wright, Hazelton, B.C., was chosen national secretary and Mrs. James Mabon, Montreal, national treasurer.

**Dust Causes Asthma.** Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

### British Preferential Treatment

Increasing Trade Is Shown With 29 British Countries

Since 1921 there has been an increase of nine British countries which enjoy customs tariff preferential treatment, while in the same period the number of foreign countries to enter into mutual compacts in this connection rose from 14 to 43. This is shown in a return tabled in the House of Commons, in which it is also noted that in the fiscal year 1921-22 Canada exported to the 20 British countries enjoying preferential rates \$317,585,982 worth of commodities while in the fiscal year 1928-29 this had increased to the 29 British countries to \$503,864,623.

### Minard's Liniment for Rheumatism.

### Photographing Canada

During the 1928 season, 92,000 photographs were taken from the air for the use of Dominion Government Services. Copies of these were filed in the office of the Topographical Survey, Department of the Interior. The complete file at the present time contains 254,000 individual prints.

## Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

## MAY RESUME TRADE RELATIONS WITH MOSCOW

London, England.—One of the first acts of the new Labor government has been to cable the announcement to all the Dominion governments of the British Empire that Great Britain intends to resume diplomatic relations with Soviet Russia in the near future.

Political observers believe the Labor ministry's move will receive sufficient support from Conservative and Liberal members of Parliament to assure approval of British diplomatic relations with Moscow.

It has long been known the Labor party was in favor of renewing diplomatic and trade relations with Russia, broken off by the raid on Arcos House, London, headquarters of the Russian commercial mission, made by the late Conservative government in May, 1927.

Although His Majesty's government is not technically dependent on approval of its new Russian policy by the Dominions, the co-operation of other parts of the British Empire is ardently desired in London.

Well-informed persons think resumption of relations with Russia will be proposed in the King's Speech from the Throne, July 2, which will announce the program of the government.

It is thought the government may count on support from both opposition parties, since the leaders of the Liberal party severely criticized the Baldwin government for its break with Russia. Among many young members of the Conservative party there is strong sentiment for getting on normal terms with Russia.

### Crop Conditions Good

But Not Up To Last Year Says C.N. Official

Montreal.—Crop conditions throughout Western Canada, although excellent in certain districts, are not generally as promising as at this time last year, stated Dr. W. J. Black, director of colonization and agriculture of the Canadian National Railways, who has returned from an official tour of the west. Notwithstanding this, however, conditions generally are more prosperous than for some years in Western cities, said Dr. Black.

There is a tremendous area under cultivation this year throughout the entire Peace River country and land settlement has been going forward there at an enormous rate. Settlers have even gone in large numbers as far northwest as the Fort St. John district and they appear generally to be a fine lot of people.

#### Posthumous Award For Bravery

Rome.—The gold medal for bravery was conferred posthumously on Dr. Finn Malmgren, noted Swedish scientist, who died while attempting to summon aid after the Polar dirigible Italia crashed in the Arctic, a year ago. The government assigned the scientist's mother, who lives in Sweden, a pension of \$500 yearly and sent her documents gathered by an official investigating commission and paying glowing tribute to Malmgren's heroism.

#### Scores Killed By Storm

Belgrade, Jugo-Slavia.—Press despatches from Jugo-Slavia points tell of more than 100 persons killed in the last fortnight by violent recurring lightning storms. Thousands of cattle have been carried away by floods with immense damage to orchards and vineyards.

#### For Crippled Children

Geneva, Switzerland.—A world conference of workers for crippled children, to be attended by public officials, scientific men and social workers, will be held here July 28 to August 2.

#### Riel Veteran Dead

Winnipeg.—A participant in both Riel rebellions, George Buchanan, 82, who came to the West as a member of the Red River expedition under Sir Garnet Wolseley, is dead at his home here.

W. N. U. 1792

## To Find Solution Of Naval Problem

Premier MacDonald Is Very Hopeful Of Ultimate Outcome

London, England.—Premier Ramsay MacDonald made known he hoped before many days it would be possible to make definite announcement of how naval disarmament negotiations were to be conducted, where a conference would be held, and the precise objects of that conference.

He was speaking at a Labor reception held at the Friends' Meeting House, in Euston Road. At the same time he disclosed that he had had a second conversation with General Charles G. Dawes, new United States ambassador to Great Britain, and had seen Hugh S. Gibson, United States ambassador to Belgium, who arrived in London to assist General Dawes in finding a solution to what has been termed the out-standing issue between the two English-speaking peoples.

Premier MacDonald, while very brief, was extremely hopeful. After he referred to the great political victory Labor had won and the general position of his government, remarking that there would be no miracles and no magic, but a sincere determination and courage to face public questions, he plunged immediately into his revelation.

"We have allowed no grass to grow under our feet. We have already started conversations with the United States.

"I am not a prophet, and am not going to pose as one able to prophesy. I am convinced of this, that the obstacles that have been in the way of an understanding have been created, if I may ring the changes on one English word, by a lack of understanding of each other. The great thing which is wanted in the world today is capacity of different peoples, different races and different nations, to put themselves in each other's shoes. That will be one of the things that we shall try to do in the conduct of these negotiations."

### Wins Hungarian Derby

Horse Sold For Seventy Dollars Captures Coveted Prize

Budapest, Hungary.—Condemned and sold a few months ago by his former owner for \$70 because he considered him "fit only for the plough," a three-year-old horse named Rabalo walked off with the Hungarian National Derby and a \$10,000 prize against a field of 21 of the country's thoroughbreds.

When Rabalo's old master consigned him to the farm he was bought by a local tavern-keeper, who found him too short to hitch to a cart. He turned him over to a friend, who, after a few months' training, prepared him to race again, the action culminating when he assumed the proudest place on the Hungarian turf.

#### Used Primitive Methods

Port Arthur, Ont.—Throwing a stone at a big bear which he had surprised in the act of robbing his catch of pike, Paul John, Indian trapper, saw the stone strike and stun the animal. He then rushed at the animal with a hunting knife, and, burying it in the bear's throat, killed it.

#### Market Commissioner

Victoria.—The Hon. T. G. Coventry, former M.L.A. for Saanich, and son of the Earl of Coventry, has been made market commissioner in London, for the British Columbia Government, it is understood. His main business will be to build up the demand for Okanagan fruit.

#### The King Making Good Recovery

London, England.—"I can give you complete assurance that the King is making a very fine recovery," said the Prince of Wales in a brief speech at the annual banquet of the British Empire Service League. The Prince presided at the banquet.

#### Population Decreases

London, England.—England and Wales have decreased in population by 44,112 persons in the first quarter of this year which, when compared to an increase of 31,611 persons for the same period of 1928, is causing some alarm.

### U.S. ENVOY TO BRITAIN

General Charles G. Dawes, new U.S. envoy to Great Britain, who discussed the question of naval disarmament with Premier MacDonald.

### Rum Running Wanes

Significant Drop In the Export Of Liquor Is Reported

Windsor, Ont.—Canadian customs returns for the current month should show a significant drop in the exports of liquor from the Essex border docks, according to reports of the United States authorities.

Imports at the one-time notorious liquor receiving depot of Ecorse have been cut to a fraction, according to customs patrols, while the occasional rum boat on the American side of the Detroit river is more or less of an oddity these nights, they say.

Considerable liquor, however, is getting through below Ecorse on the Trenton front, guarded by the greyhounds of the "dry" navy, the United States coast-guard cutters. The rum boats are shooting out from Amherstburg into the lake and there are no government boats in adequate numbers to stem the tide.

But this situation is to be remedied, according to plans announced. More than fifty boats of all descriptions are to be in service by July 1, it was reported, ranging in type from launches to the 70-foot speed boats, carrying one-pound guns and useful for long chases.

### Declares Stresemann Failure

German Foreign Minister Faced By Non-Confidence Vote

Berlin.—Dr. Gustave Stresemann, German Foreign Minister, in a vigorous reply to severe Nationalist criticism, told the Reichstag Germany would not stand for the installation of a commission in the Rhineland as the price of its evacuation.

When he debate was finished for the day the Nationalists introduced a motion of no confidence against the Foreign Minister, declaring his five years in that post had been a failure.

### NEW C.N.R. HOTEL FOR VANCOUVER

The finest hotel on the Pacific coast is now under construction in the heart of Vancouver for the Canadian National Railways. The excavation for the foundations has been completed and the steel contract awarded and work will be pushed vigorously until the hotel is ready.

This fine building, which will occupy a prominent place in the downtown section of the city, will be known as The Canadian National Railways Hotel. It will contain five hundred bedrooms and will be wholly modern in all its facilities. The photograph shows the architect's conception of the new hotel as it will appear when completed.

## Stockmen Protest Against Land Sales

Grazing Leases Said To Be Unsatisfactory To Cattle Men

Swift Current.—As a result of the Saskatchewan Stock Growers' Association Convention, held in this city, the stockmen of the province are taking action in several matters of importance to the ranching industry.

The school lands grazing leases are anything but satisfactory to the cattle men, it being contended that government regulations regarding such leases have been changing so frequently that ranchers do not know where they stand in the matter from year to year, the latest action being the offering for sale of school lands used for grazing.

The Dominion Department of Agriculture is being asked to make a survey of the Dominion to ascertain the most suitable districts for winter feeding in the interest of the stock-raising industry.

## Damage By Storm Cannot Be Computed

Cost Of Semi-Tornado In Montreal District Will Run Into Millions

Montreal.—The full story of the electrical storm and semi-tornado which swept down from the north, spreading death and destruction in its path from the Laurentians to the eastern townships, remains to be written. The death toll stood at seven but news from the Laurentian district north of Montreal was only fragmentary owing to continued disorganization of communication lines.

Total damage caused by the storm will never be completely computed, but it is extensive and probably runs well into the millions, \$1,000,000 worth of damage alone having resulted when lightning set fire to the Sacred Heart convent at Saul au Recollet, near here, and completely destroyed that widely known educational institution.

### Oldest Odd Fellow Dead

Andrew Wickett, Vancouver, Was Member For Sixty-Five Years

Vancouver.—Andrew Wickett, aged 92, a member of the Independent Order of Odd Fellows for more than 65 years, and said to be the oldest member of that order, is dead here. Mr. Wickett was born in Ontario and became a member of Aylmer Lodge No. 90, I.O.O.F., Aylmer, Ont. As a young man, and to his death, he retained his connection with the lodge. He was a retired lumberman.

#### Hail In South Africa

Durban, Natal, South Africa.—The most destructive hail-storm in this city's history occurred here causing intense damage which some estimated at 500,000 pounds sterling, about \$2,500,000. A few minutes after the hail started, it lay eight inches deep on the streets, some of the stones being four inches in diameter.

## GRAIN DRYING DETAILS GIVEN TO COMMISSION

Winnipeg.—The suggestion that two standards for grain grading be established—one for grain destined for the eastern seaboard and the other for westbound cargoes, did not receive the approbation of James D. Fraser, chief of the grain inspection department, when counsel for the Saskatchewan Royal Grain Commission asked his opinion of the proposal during the commission's sitting here.

"I don't see how two grading standards can be applied," declared the inspector chief for the western division. "Once the standard is set by the board it must be maintained regardless of its destination."

Technical knowledge of grain drying was given the commission by Dr. Wm. F. Geddes, professor of agricultural chemistry at the University of Manitoba, who was a member of the associate committee of national research on grain drying. Declaring that grain can be dried from any state, Dr. Geddes pointed out that according to the conclusions reached by his committee the safest manner in which to dry grain was by a continuous discharge of grain through the dryer. Batch drying, he said, was found not suitable.

On Chief Brown's suggestion that bleached wheat could be tested before sold, Mr. Fraser replied that the only tests which could be made would be those of milling and baking.

"And to mill and bake wheat for testing purposes would be a great obstruction to the grain movement during the 'rush season,'" he added. The tests would take about two days, he thought.

To convince eastern and overseas buyers that damp wheat, when dried in elevators, is as good value as straight graded wheat of the same grades, Mr. Fraser thought the inspection department would have to be given complete supervision over all grain drying. If the wheat is properly heated, the color of kernel would be changed, he told the commission, but not the protein value. He thought that if the inspection department marked heated grain it would be accepted by buyers. The damage to tough and damp grain is all done during the heating process, the commissioners were informed.

Asked if he favored abolition of mixing in all grades, Mr. Fraser would not reply. He thought however, that prohibition of mixing would materially lessen the labors of his department, though he doubted whether the present uniformity in grades would be upheld.

### Canada's Forest Wealth

Will Take Inventory Of Forest Resources As Preliminary To Reforestation Plans

Ottawa. Federal and provincial governments of the Dominion are co-operating for the purpose of taking an inventory of Canada's forest resources. Today, Hon. Charles Stewart, minister of the interior, opened a conference attended by three provincial ministers, as well as by several federal and provincial officials, which will endeavor to arrive at the actual forest wealth of Canada.

In his brief opening address, Mr. Stewart pointed out the importance of this step as a preliminary to reforestation plans.

#### Railways Paid Large Sums

Washington.—Canadian railroads took \$40,000,000, in round figures out of the United States as freight charges on United States commodities shipped over Canadian lines in 1928. These figures are contained in a pamphlet on international payments put out by the Department of Commerce. On the other hand, Canadians paid about \$14,000,000 to United States roads for similar transport.

#### Relieves Water Famine

Hong Kong.—Occasional showers followed by a torrential downpour, are believed to have relieved the worst fears growing out of water famine.

## CROP MANAGEMENT FOR WEED CONTROL

A thorough summerfallow will usually be the most effective method of bringing the most persistent growing perennial weeds under control. When it is necessary to resort to the summerfallow as a weed control measure, it is advisable to adopt some systematic rotation of crops, with regular seeding down to grass and legumes at short intervals.

Many farmers feel that they can ill afford to free their land of weeds by any method which will not give a crop of some kind. While the eradication of perennial weeds such as sow thistle, quack grass, etc. necessitates the use of the fallow, such treatment does not free the land from many annual weeds such as wild oats, mustard or stink weed, hence it is necessary from an economic standpoint to adopt farming methods that control rather than eradicate such weeds.

Land that is badly polluted with perennial weeds will produce an excellent crop of winter wheat or rye. Both of these crops act as smother crops for all types of weeds if they get a good start in the fall and do not winter kill.

Barley and oat green feed if handled properly will effectively compete against most of our annual weeds and many perennials. Land to be used for these crops should be partially fallowed before seeding. It is usually wise to disc the stubble a week or so before ploughing and thus promote ger-

mination of weed seeds which matured with the preceding crop and fell on the ground. A succession of such crops and treatments tends to reduce the weed seed content of the soil.

Seeding down grass and legumes and cutting the hay crop early will prevent most kinds of weeds from ripening, thus decreasing the number of vital weed seeds in the sub-surface soil from year to year. Alfalfa and sweet clover are the best crops to use for this purpose.

Live stock and particularly sheep are valuable aids in weed control. Live stock are most essential to profitable agriculture on a weedy farm as many of the crops which control weeds are not cash crops and can be marketed to best advantage by the live stock route. In addition to this, many perennial weeds with a creeping root system such as quack grass can be much more easily eradicated if the land is seeded down and left in pasture for a few years until it becomes sod bound.

Many a woman who said she would not marry the best man on earth—didn't.

"There's money in chickens." Yeah they're the neighbor's chickens. And it's the money you spent for garden seed.

Men are just the opposite from guns; the smaller the calibre, the bigger the bore.

New style bucket seats for first class coaches on Canadian Pacific day fast trains have been introduced on regular trains of the company and are proving very popular. The seats are upholstered in a cool moquette material and are provided on their backs with coat rail, umbrella stand and check holder for the convenience of passengers.

The stork recently visited Canadian Pacific train No. 51 between Langan and Saskatoon and left a daughter to Mrs. Mary Alexander on her way with her husband to settle on a farm near Edmonton. Miss Binning, government conductor of the immigration department at Quebec, was on the train. She secured a first aid kit from the conductor and took charge of the case. Mother and daughter are doing well.

Sixth annual trail ride in the Canadian Rockies will start from Banff August 1, and end a few days later at Castle Mountain Bungalow Camp. Seven glacier-fed lakes are on the route which will form half of the long-desired High Line trail from Banff to Lake Louise. The second half will also skirt several glacial lakes. About August 8 the long distance trail ride from Lake Louise to the Columbia Icefield will make a start. This icefield covers the largest and most spectacular body of ice left on the North American continent surrounded by peaks as high as 12,000 feet. The second trail ride will take nearly three weeks.

The only golf trophy offered on the continent of America by His Royal Highness, the Prince of Wales Cup, presented to the Banff Spring Golf Club for annual competition by bona fide amateurs on the course there, will be among the outstanding prizes of golfdom when members of the "Canadian Golfer" tour special train which is crossing Canada from Toronto to Victoria and back this summer, arrive at Banff early in September.

"Scotland and Glasgow are proud of Canada for the part she is playing in trans-Atlantic shipping," said T. L. Duff, well-known ship owner and broker, when interviewed at Banff recently. "The building of a ship directly employs about 5,000 craftsmen on the Clyde," he added, "and the supplying of the materials and fittings required in construction indirectly benefit industries throughout Scotland." Mr. Duff said that Scots felt that the Canadian Pacific whose recent ship orders had done so much for Scottish industry, was as much Scottish as Canadian, the founders having been of Scottish descent and so many of the ships of Scottish construction.

## Island of Orleans—Island of Bacchus

The ship may be as old as the wayside shrine, and only oxen tramp where Cartier found the Indian and the vines. The house by the road is more than 250 years old.

"WE likewise found quantities of vines such as we had seen nowhere else in the world and which led us to call this the 'Island of Bacchus'." Thus the Saint Malo captain, Cartier, who discovered the Isle of Orleans in 1535 first named it.

Four hundred years. Ships of the adventurer, the explorer, the pioneer, the builder of empire and later, great ships of commerce followed those of Cartier, but the Isle of Bacchus has not known them all and has slept before the portal of the new world for many generations. Not that it has been forgotten, but that the bigger ships have gone by. Industry has not destroyed its charm and today it remains, if not the pristine Isle of Cartier, a piece of old France as translated by those who shortly followed him.

The illustrations above typify the island. "Progress" has been slow. Its people have learned the secret of content. Their tongue, their modes, their

homes are of a century ago. They weave their catalogue; live in homespun. They are blessed with old people. Yet, a short ferry distance away, Quebec with its ramparts, its Chateau Frontenac and its ocean shipping, keeps pace with the advance of the times.

At Ste. Petronille, one of the quaint little villages where wealthy Quebec has its summer homes, an inn has this year been opened, so that it is now possible for the visitor to rest for a while and absorb at leisure the charm and beauty of the forgotten island. But he must be prepared to eat of the good viands of the Habitant and to live a little closer to the homespun. The people of the island will welcome him with good-nature but they have little liking for the modern. They have the secret of content and good-living, on the Island of Bacchus.

The name of the new Inn is La Catalogne and it once was a seignorial mansion.

1929  
1817

112 years

FOUNDED in 1817, the Bank of Montreal is now in its 112th year of financial service for the people and commerce of Canada.

In every place of importance throughout the Dominion, the Bank is represented by a fully-equipped Branch. It also has its own offices in Great Britain, France, the United States and Mexico.

Its facilities in all phases of domestic and foreign banking are unexcelled.

PREVENT FOREST FIRES

WORLD HAPPENINGS  
BRIEFLY TOLD

Director Bauerle of the Zeppelin works has gone to Tokio to prepare for the arrival of the Graf Zeppelin there on its cruise around the world.

A participant in both Riel rebellions, George Buchanan, 82, who came to the West as a member of the Red River expedition under Sir Garnett Wolseley, is dead at his home, in Winnipeg.

England and Wales have decreased in population by 44,112 persons in the first quarter of this year which, when compared to an increase of 31,611 persons for the same period of 1928, is causing some alarm.

Hon. Mr. Justice Riddell, Toronto, was elected president of the Canadian Social Hygiene Council at the annual meeting in Montreal. Judge Emily Murphy, Edmonton, and Dr. H. E. Young, Victoria, B.C., were appointed vice-presidents.

The great appeal flying has for the university student resulted in the department of national defence receiving more applications for its course at Camp Borden than it has facilities to accommodate. The new class will have forty students.

Prof. C. MacIntosh, a native of Canada and professor of theology in Yale Divinity School, who would not promise to defend the United States against all enemies, was denied American citizenship by Federal Judge Warren.

Frank G. J. McDonagh, of Toronto, was elected president of the Canadian Pensioners' Association at the fourth annual meeting of the association there. A large increase in membership was reported from Ontario and British Columbia.

Arthur Thomas, 19-year-old bandit who held up the Grandview branch of the Royal Bank of Canada at Vancouver, escaping with some four thousand dollars, was sentenced in police court today by Magistrate H. C. Shaw to five years in the penitentiary and ten lashes.

If the organized system of cattle rustling by truck is not checked immediately, Saskatchewan ranchers and stockmen of the entire west will be great losers, according to delegates in attendance at the seventeenth annual convention of the Saskatchewan Stock Growers' Association, at Swift Current.

DO NOT NEGLECT  
YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The ills of little ones come quickly and unless the mother is prompt in administering treatment a precious little life may be snuffed out almost before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest as a safeguard against the sudden illness of her little ones. Thousands of mothers have found, through experience, that there is no other medicine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets on hand—why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concerning them, Mrs. Isaac Sonia, St. Eugene, Ont., writes: "I have been using Baby's Own Tablets ever since baby was a month old and have found that they reach the spot and do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Mother, what a lot of lipstick that animal must use."—Lustige Kölner Zeitung, Cologne.

## Holds Important Office

## Britain's First Woman Cabinet Minister Well Fitted For Position

Miss Margaret Bondfield has been given an important office in the Labor Government. She is Minister of Labor and the first woman to hold Cabinet rank in any British administration. She is also a member of the Privy Council.

Miss Bondfield is a former president of the Trades Union Congress and she was one of the prominent personages at Washington when the International Labor Conference was held there.

A valuable report on child migration to Canada was produced by Miss Bondfield in 1924, when she was parliamentary secretary of the department she now heads.

Once, when bidding farewell to a party of domestics going to Australia, Miss Bondfield told them the mistress of the house had a right to expect a "good, honest day's work."

The appointment to Cabinet rank of Miss Margaret Grace Bondfield is of particular interest to Canadians who remember her visit to Canada in January, 1927.

She was first elected to Parliament by Northampton, which she represented in 1923-24. She has served a thorough apprenticeship for her present Cabinet position, having been parliamentary secretary to the Ministry of Labor in the MacDonald Government in 1924. She was the successful parliamentary candidate in Wallsend in 1926.

## SUNDAY SCHOOL LESSON

JULY 7

## THE STORY OF EZEKIEL

Golden Text: "As I live, saith the Lord Jehovah, I have no pleasure in the death of the wicked; but that the wicked turn from his way and live."—Ezekiel 33:11.

Lesson: Ezekiel 1:1-3; 2:1 to 3:27; 8:1-4; 11:22-25; 24:15-24; 33:30-33.

Devotional Reading: Psalm 121.

## Explanations and Comments

Ezekiel's Vision, Call, and Commission, 1:1 to 2:7. In the first chapter Ezekiel describes the indescribable—the complicated vision which he had of God—the wonderful chariot, the fiery cloud, the four living creatures, in their midst the perpetual flash of lightning and the glow of fire, above them the crystal firmament, on it a sapphire throne, and on the throne Almighty God, Himself.

The prophet fell prone upon his face, till the awful silence was broken by the voice of God bidding him stand upon his feet and receive his commission for service.

"More important than the attitude of worship is the attitude of readiness for action."

"And the Spirit entered into me when He spake unto me, and sat me on my feet," Ezekiel declares. "This is the divine energy, enabling a man to come to the height of his manhood, and so to find readiness to hear the word of the Lord."—G. Campbell Morgan. The service to which God called the prophet was to proclaim to the rebellious people the divine message, the "Thus saith the Lord Jehovah." The Israelites have been rebellious throughout their national history; they are imprudent and stiff-hearted and they may not listen, but the prophet must not be disturbed by their words and looks, even though there are "briers and thorns" and he dwells "among scorpions"—symbols of the opposition he may meet.

Ezekiel's Inspiration, 2:8 to 3:3. That Ezekiel was divinely inspired, that the message which he was to proclaim was communicated to him by God, is symbolized by his eating at God's command a book [roll] on which was inscribed God's message. "The lamentation, mourning, and woe inscribed in the visionary book do, in point of fact, faithfully describe the general contents and temper of Ezekiel's message throughout the earlier part of his ministry and the first half of his book, that is, down to the fall of Jerusalem."

"This conception of inspiration implies that the message he is to deliver must be his own. It is God's ultimately, but Ezekiel must make it his own, work it into the very life of his being, assimilate it, as we should say—this is the meaning of the strange language of 3:3—until it is himself that he is uttering. When he eats the roll, bitter as are its contents, it is as sweet as honey in his mouth, for it is sweet to do the will of God, to be trusted with tasks for Him."—A. S. Peake.

"This finely suggests that the co-operation of man is indispensable to the adequate reception of a message from God. The roll is a gift of God, but the man has to eat it. The message is, we may say, supernaturally communicated, but it has to be appropriated and assimilated. The man has to make the gift of God his own."—J. E. McFadyen.

## Canadian Amateur

## Golf Championship

Entries Restricted To Players With Handicaps Of Ten and Close August 1

Entries for the Canadian Amateur Golf Championship to be played over the Jasper Park Lodge Course, Jasper, Alberta, August 19 to 24, will close on August 1, according to announcement made by C. E. Harvey, president of the R.C.G.A. Positively no entries will be accepted after that date, Mr. Harvey said, and it will be necessary for those desiring to play to have their entries in the hands of B. L. Anderson, secretary of the R.C.G.A., Hamilton, Ont., before August 1.

Players entering the Canadian championship must have a certified handicap of ten or less. Figuring on this basis, it is believed that about 100 players will tee off in the qualifying round of the major event at Jasper in August, the figures being arrived at as follows: Eastern Canada, 20; Manitoba, 15; Saskatchewan, 10; Alberta, 20; British Columbia, 20, and the United States, 15.

A much larger entry list is expected for the Western Canada Amateur Championship which will be played over the Jasper course at the same time. This event is open to players with a registered handicap of 16 or less. Entries for this event should be in the hands of Innes Mackenzie, Winnipeg, secretary of the Western Canada Golf Association, not later than August 14, though in special circumstances post entries will be accepted at Jasper.

## Manufacturing In the West

Value Of Production In Three Prairie Provinces Reaches Large Figure

Reporting for the prairie division of the Canadian Manufacturers' Association, H. B. Lyall, of Winnipeg, said at the convention at Halifax, that the value of the products of manufacturing industries in Manitoba, Saskatchewan and Alberta, in 1928, exceeded \$325,000,000. Two major developments noted by Mr. Lyall were the utilization of the mineral wealth of Northern Manitoba, and the development of the Alberta oil resources.

## Minard's Liniment for Neuralgia.

The Captain—"I hear you arrested Buffalo Mike and then let him go." The Patrolman—"That's not so. I had the wrong man. He showed me conclusively that he wasn't from Buffalo. He'd just come from Troy."

## The Vimy Monument

Credited With Being the Finest Of Any In the Battlefield Area

"The Vimy monument is the finest of any in the battle area," declared Hon. Herbert Marler, Canadian envoy to Japan, upon his return to Canada from a European trip. Mr. Marler, who is sailing for Tokio from Vancouver on August 29, aboard the "Empress of France," was in England and France on business matters and while over there was received by the Prince of Wales. The Prince, said Mr. Marler, showed himself to be well informed on the Canadian conditions, and asked a number of questions about the Dominion.

"After spending some little time in England, I went to France, and then saw the battlefields. Among the host of monuments that have been erected those of Canada are the best, and the Vimy monument is the finest of any in the battle area. On it are to be sculptured the names of 11,000 Canadians who fell at Vimy," he said.

"The poor we have ever with us." "Yes; and aren't their flivvers a nuisance?"

## Girl Freed By Soviets

Was Kept Prisoner By Parents For Twenty-One Years

Soviet authorities have liberated a 27-year-old peasant girl whose parents kept her locked in a barn for 21 years because they erroneously believed she was a leper.

The girl, when accidentally discovered and released in the Tashkent district village of Tchuyyn-Toba, appeared to be a wrinkled old woman, her hair was grey and her skin wrinkled. She was half-blind and undeveloped mentally, officials reported.

She was found to be suffering from a minor skin disease which is easily cured. The peasant parents said they had locked her in the dark room in 1908 because they feared the natives would stone and drive her away if they discovered she had leprosy.

## Mexican Jumping Bean

The Mexican jumping bean does so because of a little worm inside which coils itself and lets itself go like a catapult, carrying its house along with it. The worm lives in the bean all the time, and if a hole is made in the shell, it fills it up again.

## Song of Thanksgiving

The following song, "Gratitude", words by W. E. Dyer and tune suggested by Dr. E. C. MacMillan, is an empire song of thanksgiving for returning health of His Majesty the King:

WINCHESTER OLD. C. M. 2/4.

EST. 1912.

Almighty God—in gratitude  
We now approach Thy throne.  
And in one voice, though many  
tongues,  
Thy might, Thy power own.

The Sovereign Lord of Britain lives!  
And health returns—by grace  
Of Thy divine, Thy healing hand,  
Men look upon his face.

The East and West, the North and  
South,  
And mansion, cottage, field,  
Cathedral, church and humble  
shrine,  
Their grateful message yield.

O grant that still increasing health,  
And years of service, too,  
May be vouchsafed unto King George  
And his Queen Consort true.

Grant peace in all the Empire,  
Lord,  
Grant peace throughout the world;  
May every people sing Thy praise,  
With every flag unfurled.  
Amen.

Teachers in schools throughout the west may secure copies of this "Hymn Of Gratitude" in its original form by writing to the composer, Mr. W. E. Dyer, 4 Fairlawn Avenue, Toronto, and enclosing postage to cover the cost of mailing.

## WINDOLITE

The Improved  
Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

## The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

### SYNOPSIS

As gray dawn creeps over the New York skyscrapers, Marcus, the famous revue producer, is leaving the fashionable Plaza night club with a party of four. An actress companion suggests that they go to Blackie Joe's club, where the "fun is just starting," and Marcus consents. At Blackie's shabby club the newcomers are seated at a "ring-side table" by Al Stone, Blackie's head singing waiter and comedian, who wonders who they are. Grace, the pretty cigarette girl, catches the name "Marcus," and hopes the celebrated producer will do something to help Al, whom she admires tremendously.

### CHAPTER II.

As Al hurried toward the door leading to the bar, Grace speculated as to whether she could cut across and intercept him. But he was moving too fast and there were too many tables in between. She decided to wait until he returned, then she would drop a word as to Marcus' identity. It was necessary for Al to know that, so he could put everything possible into the comic songs he would sing in a few moments.

Grace's sensitive young face was a study in devotion. Al Stone had been her best friend at Blackie's place. When she had taken the job of cigarette girl a few months before, the crowds, waiters, bar-tenders and performers frightened her, the rough-and-ready atmosphere of the place made her timidly draw into herself. Then it was that Al had put his hand kindly on her shoulder and looked down into her apprehensive brown eyes.

"Don't be scared, kid. Everybody's all right here."

Two minutes later, Al had forgotten his words, but Grace treasured them and knew them by heart. She had promptly fallen in love with him. Al did not know this, no one knew it, not even Grace herself. She merely knew that the dark, gentle eyes of the young singing waiter had a quality she had never seen in the eyes of another man.

## Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.

**Lydia E. Pinkham's Vegetable Compound**

Lydia E. Pinkham Mfg. Co., Lynn, Mass., U. S. A.  
and Canada, Ontario, Canada.

W. N. U. 1792

Now he was obscured for a moment as a chorus of dancing girls tripped across the floor. The chorus was agile, but that was all you could say. They were neither graceful nor beautiful.

Marcus, the producer, the connoisseur of femininity, the despot who picked only the loveliest girls for his revues and rehearsed them for months until they were step-perfect—Marcus made no attempt to hide his disdain at this apology for entertainment. Grace saw him turn to the pretty actress at his table with a bored look that said only too plainly: "So this is what you brought me to see!"

Then Grace heard a voice behind her, a rough masculine voice.

"Hey, cigarette girl, come here."

She swung about and carried her heaping tray of cigars and cigarettes to a nearby table. Three men, bleary-eyed and uncertain of speech, looked up into her face.

"Want some—cig—cigarettes," said one of them.

Grace lowered her tray for this patron to make a selection and, as she did so, became aware that one of his companions had drawn his chair closer to her.

"Say, you're a nice kid," suggested the second man, with a rapt expression on his face. "Do you know you're cute. I been watchin' you."

Grace smiled faintly, but ignored him otherwise, while she passed out the cigarettes to the first customer. That was what Blackie and Al had told her to do when the patrons became personal in their remarks—say nothing and attend to business.

As she leaned across the table to hand another pack of cigarettes to the third man of the party her skirts rose a trifle. Without looking she knew that one of the customers was looking her up and down. Then suddenly she felt her other hand in his tightening grasp.

She straightened up sharply and tried to draw away. She knew she mustn't make a scene, for, after all, she was only a night club cigarette girl, and the customers must be humored a little.

At this moment, Al Stone, just about to turn the corner to the door leading to the bar, shot a glance across the room and visualized Grace's predicament in a flash. In a moment he had veered across, while Grace gazed beseechingly into the drunken man's eyes and murmured, "Please let go."

Then Al loomed at her side and stepped sharply on the man's foot.

A cry of pain came from the customer and he released Grace to seize his aching toe. The girl caught Al's signal and made good her escape, while the three unsteady Don Juans stared up in bewilderment at Al's broad grin.

"Why did you step on my foot?"

"Did I do that? I'm sorry."

Again the broad, but guileless grin from Al. Then he moved off, swiftly as he had come.

But now he felt a hand lightly on his sleeve and looked down into Grace's wistful eyes.

"Thank you, Al," she murmured.

The waiter patted her on the shoulder. "That's all right, Gracie. Those things will happen. If they bother you again let me know."

Al glanced down at the diminutive Grace and his handsome face softened, as it always did when he reassured her. But in the tenderness of her dark eyes he saw only the gratitude of someone he considered merely a sweet child. To him the marked evidence of acceleration in her breathing and the faint tremor of her warm and lovely little mouth were only her reactions to fright. Nor did he see her head turn, as he moved away, while her eyes followed him adoringly.

Not until he disappeared and the throb of her heart swung back to normal did Grace recall that she had a message for him.

But when the singing waiter reappeared with his four beers on a tray he did not head straight across the big room. Instead he paused in the barroom entrance and glance down a corridor. Through an open doorway he saw a good-looking blonde girl, a few years older than Grace, seated before a mirror in a tiny dressing room. She was studying her reflection in a self-satisfied way as she slowly and rhythmically brushed her lustrous golden hair. This was Molly Winton, the ballad singer at Blackie Joe's.

Al moved slowly toward the door as if drawn by a magnet, forgetting his order for a moment. His eyes lit up at the sight of Molly and with fascinated gaze he watched her white, rounded, raised arms protruding from her pink silk dressing gown as she slowly manipulated the hair brush.

Molly was undoubtedly a pretty girl and one of the favorites at Blackie Joe's. Yet there was a hardness about her eyes and a petulance discernible at the corners of her mouth that boded no good for the man who would fall in love with her. Al, however, was blind to these defects.

As he neared her dressing room door she saw him, gave him one indifferent glance, then turned to the mirror again to rouge her shapely lips. At that moment of studying her reflection Molly, the heart-song specialist, was gazing at the person she loved best!

(To Be Continued.)

**For Both House and Stable.**—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

### Small But Efficient

A small electrical instrument, four inches across and not seven inches high, will, it is claimed, detect an escape of only 1 1/4 per cent. of gas in any tunnel or inspection chamber. When the escape occurs this instrument warns the nearest telephone exchange.

## Fishermen

Take Minard's along to relieve irritation of mosquito bites. Also good for cuts and bruises.

## Why go to Peru?

When crude oil is so plentifully available here in North America, why does Imperial Oil Limited go 4000 miles to Peru for the crude from which Marvelube is made?

It is because Peruvian crude has lubrication properties which make it particularly desirable as a base for a superior motor oil.

That is why Marvelube is giving aircraft operators longer periods between engine overhauls and a greater margin of safety.

Marvelube meets the needs of the modern high-speed motor, in the air or on the road, because its carbon-free and heat-resisting superiorities are created by Nature herself.

Let Marvelube give you the benefits of better lubrication. There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

### Service For 'Plane Passengers

May Receive Market Reports and Musical Programs Is Prediction

Acroplane passengers of the future may expect to listen regularly to market reports, baseball scores, and musical programs, if the prediction of W. P. McCracken, Jr., of Cleveland, assistant secretary of commerce for aeronautics, comes true.

"These programs could be tuned in right now, for that matter," McCracken indicates. "In favorable weather the pilot of a properly equipped plane has no need of his radio apparatus."

McCracken predicts that great developments will be made along the line of radio transmission from ground to plane and from plane to ground.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

### Bicycle Boats Are Latest

Have Become More Popular Than Swimming Channel

Bicycle-boating across the Channel has replaced swimming in popularity.

Three athletes have already succeeded in crossing, so far this year. The latest was a woman, Miss Almee Pfanner, who pedalled her way over on a nautical bicycle in 9 hrs. 19 mins. She was so worn by the effort that she fainted as she got off her seat.

The bicycles are fitted to two long-pointed pontoons and the pedals are attached to paddlewheel propellers. The sea-bikes make about five miles an hour, but currents bother Channel bikers.

### Sixteen Planes Cross

The landing of the French monoplane "Yellow Bird" in Spain brought to a total of 16 the number of times the Atlantic Ocean, north and south, has been crossed by heavier-than-air machines. Dirigibles have made the crossing five times.

The Nile and Congo Rivers of Africa have been connected by a motor road.

### Farmer's Average Income

Cash Income Per Farm In Prairie Provinces Shows Increase For Last Year

The average cash income per farm home in the Provinces of Manitoba, Saskatchewan, and Alberta last year was \$2,544, exclusive of the value of seed, feed, meat, vegetables and other commodities produced and retained by the farmer for his own requirements, according to the Nor'-West Farmer. This is an increase of \$75 per home over the previous year.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

### A Short Will

One of the shortest wills ever filed for probate has come to light in Philadelphia. It contains seven words. Joseph Haines and two companions were out hunting when Haines was stricken with a heart attack. On the back of a grocery sales slip he hastily scrawled in pencil, "I do give everything to my wife," and died shortly after. His estate was valued at \$9,000.

## Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Jago, Canobie, N.B., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

and after the second dose I saw an improvement. I gave him almost half a bottle and he was completely relieved.

"I have used it for the other children, and my husband and myself. My husband gives it great praise, and when he goes away from home to work he always takes a bottle with him."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

## WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-38 registered a draw bar pull of 5,335 pounds at 2 miles per hour and 4,075 pounds at 3 miles per hour. On the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

DON'T MISS IT

The induction service for the new  
pastor of the United church, Rev. Mc-  
Nichol, of Elnora, will take place in  
the United Church on Thursday eve-  
ning, tonight, at 8 p.m. J. B. Mc-  
Cubbin of Swallow, Rev. J.C. Mac-  
Lennan of Acme and Rev. R. A. Shrag  
of Three Hills, will be present at this  
service. The ladies aid will serve re-  
freshments.

English church service will be held  
in the Farmers Exchange hall on Sun-  
day next at 11 a.m. Holy Communion  
will be celebrated at this service.

RAILWAYS CLAIM LOSS ON  
EASTERN COAL SHIPMENTS

On behalf of the Provinces of On-  
tario and Alberta, application has been  
made to the Board of Railway Com-  
missioners for submission, by the two  
transcontinental railways for figures  
showing the "out of pocket" cost per  
ton of hauling Alberta coal to Ontario  
in 1929.

Acting for the two provinces, J.  
Earl Lawson, M.P., of Toronto, has  
asked that the information be sup-  
plied to the Board and a date fixed  
for a public hearing.

In his application to the Board of  
Railway Commissioners, Mr. Lawson  
contends the fundamental reason for  
fixing the temporary freight rate of  
\$6.75 a ton from Alberta to Ontario,  
during the slack seasons for a three  
year period was to determine, after  
experiment, what would be a fair rate  
for hauling the coal. He takes the  
stand for the provinces, that the first  
essential is to learn the actual cost  
of transportation.

The provinces allege the cost state-  
ments already submitted to the Board  
ignore the "out of pocket" cost and  
that a relatively higher price is as-  
signed to coal than the average rate  
of all traffic moved.

When the Board of Railway Com-  
missioners returns to Ottawa, follow-  
ing hearings now being held in On-  
tario and Western Canada, it will  
have before it the applications from  
the Canadian Pacific Railway and the  
Canadian National Railways for reim-  
bursements for what they submit were  
their deficits from hauling coal from  
Alberta to Ontario last year.

The rate for haulage per ton was  
fixed at \$6.75 and the C.P.R. submits  
it meant a deficit of \$6.71 a ton, or  
\$39,898.35. The Canadian National re-  
ports a somewhat similar deficit per  
ton, for a total of \$2216,206.65.

Small Brother: Say sis, can I hang  
up your stocking next Christmas eve?  
Big Sister: What on earth do you  
want to hang up one of mine for?  
Small Brother: So's I can see what  
I got without getting out of bed.

## CARD OF THANKS

Mr and Mrs. R. Heath wish to ex-  
press their deepest appreciation and  
thanks for the many expressions of  
sympathy, floral tributes and services  
received from their many friends in  
their recent sad bereavement.

GLYCERIN MIXTURE  
STOPS CONSTIPATION

The simple mixture of glycerin,  
suckthorn bark and saline, etc. (Ad-  
lerika) acts on BOTH upper and low-  
er bowel and relieves constipation in  
TWO hours. Brings out old waste  
matter you never thought was in your  
system. Don't waste time with pills  
or remedies which clean only PART  
of the bowels, but let Adlerika give  
stomach and bowels a REAL cleaning  
and see how good you feel. —A. F.  
McKibbin, druggist, Carbon.

## An Army of Cordon Bleu Chefs

An army, said Napoleon, marches on its stomach, but a hotel prospers as much as anything on its food. These are the men at the Royal York Hotel who are responsible for the good cheer at that famous hostelry which was opened last week by the Governor-General with a distinguished company of prominent Canadians including the president and di-

rectors of the Canadian Pacific Railway, the premier of Ontario and many others. These chefs command an army of 175 culinary experts and indirectly another army of 300 waiters. They are from left to right: E. Argange, party chef; R. Albertella, assistant chef; J. Cherrier, head chef; J. Aublard, assistant chef; W. Thonfield, banquet chef; and P. Raaberg, grill chef.

## Paint - Paint

I have just received a large shipment of LOWE BROTHERS high standard HOUSE PAINT in various assorted colors. Paint is determined only by the area it will cover efficiently, not by the price per gallon or quart. Paint values are determined by a yard stick, not by price per package and when it comes to actual values there is the other consideration of the brilliancy and durability of High grade paint.

LOWE BROTHERS outside white paint at \$3.65 per gallon with an absolute guarantee back of it, is the very best value ever offered the purchasing public of this district.

If you are in the market for RED BARN PAINT, my prices range from \$1.60 per gallon up.

Who Does Your  
Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
